

Aluminium Trestles

These sturdy light trade tradesman's trestles are made from aluminum box section stiles and cross bars.

Each trestle is hinged at the top with galvanised steel hinges to prevent over splaying.

Strong rope ties are also fitted as an added precaution.

Clow Aluminium Trestles		
Code	Stock Sizes	Weight (kg)
AT06	1.83m (6')	14.1
AT08	2.44m (8')	17.2
AT10	3.05m (10')	21.5
AT12	3.66m (12')	25.8
