

Reach-A-Light Ladder

The Reach-A-Light Ladder provides a wide range of uses and is ideal for high ceiling buildings.

The Reach-A-Light ladder can be used as...

- A Single Section Ladder
- A Double Extension Ladder
- A Triple Extension Ladder
- A Double Sided Ladder
- A Free-Standing Ladder

Ideal for use in church halls and buildings with similar high ceilings it can be used by the professional, tradesman or DIY enthusiast. Unique automatic rung locks prevent sections accidentally separating while in use.

This ladder is tested and approved to EN131 and has a maximum permissible load of 150kg.
