

**TXH SERIES
HYDRAULIC HAMMERS**

TOUGH. SIMPLE. RELIABLE.

Terex® TXH hydraulic breakers are designed to keep working as long as you do.

Maximise Up-Time

The Terex® hydraulic breaker range offers high quality, long life and excellent serviceability, at a competitive price. The range includes hammers with all the power needed for the toughest applications within one of the most compact designs available.

Terex® hydraulic breakers are built for complete compatibility with the Terex® excavator and backhoe loader range. Every hammer in the range is vibra-silenced to offer compliance with the latest standards of operator safety and comfort.

Why mix when you can match? Buy Terex® breakers for your Terex® machine.

Features

- Low maintenance, with a boltless mounting system.
- Only two moving parts – the piston and valve.
- High blow energy is constant throughout the engine rev range.
- Vibra-silenced via polymer suspension pads reduces total operator and carrier machine vibration exposure.
- The pure nitrogen backhead means that we don't use diaphragms, reducing down time, and a speedy re-gassing will get you back to work in a matter of minutes.
- A high quality, modern hammer at a competitive price so you get a rapid return on investment.
- Guaranteed Sound Power Levels (EU Noise Directive 2000/14/EC)
- Easily maintained through single point greasing system for tool and bottom housing.
- The one piece box does not use cross-bolts, so you can cut a narrower trench without fear of catching on the sides.

The simple but quality design gives long, trouble-free usage with maximum up-time and high performance.

THE RANGE TO MEET ALL OF YOUR BREAKING NEEDS.

From mini excavators to backhoe loaders, crawler excavators to wheeled excavators, Terex have the right TXH hydraulic hammer to meet your needs, with a wide range of models matched to your carrier's flow, pressure and lift capacity.
