

**Model: 2013.13**

**Description: Forklift Tipping Skip c/w Castors**

### **Specification**

The 2013 fork lift tipping skip is the ideal solution when moving waste around your site or factory.

With four way fork pocket entry the units can be placed exactly where required.

Leading the way in health and safety each unit is supplied with a fixed heel pin and “tear-drop” safety catch to ensure the skip doesn’t discharge during transit.

Rectangular shape with 3 mm sheet steel edge-profile surround, oil-tight and water-tight welded joins.

Roller system with automatic release, can be tipped in any position by cable pull from the driver’s seat. Safeguard against inadvertent slipping and tipping.

A set of 4 x Castor Wheels are available.
