

EARTH AUGER

Earth Auger

American built, the Power-Mec post-hole borer utilises a 43cc 2-stroke engine to combine power with ease of use.

Lightweight and simple to operate, and with a choice of 4" (100mm), 6" (150mm), 8" (200mm) or 10" (250mm) augers, this truly is a labour saving tool - whether erecting a garden fence or fencing off a two acre paddock.

Designed to be one-man operated the auger incorporates a spring loaded drive to protect from jarring.

MODEL	ENGINE	AUGER SIZES AVAILABLE
ED430	43cc Two Stroke - Recoil Start	4", 6", 8", 10"

Auger sizes 4", 6", 8", 10"
