

35kW output

Highly efficient (90%)

Reliable

Portable to inaccessible areas

Quiet in operation @ 65dbA @ 3m

Safe and Easy to Use

Robust construction

Clean dry heat essential in applications for accelerated

Ideal for areas with limited ventilation

100% Fume-free

Housing remains cool to the touch

Fuel 35 sec Class D (diesel/kerosene)

Automatic operation

High air displacement 2160 m³/hr

Maximum duct length 30m with one duct

Overheat switch protect

Summer switch for ventilation

Operates on either 110v or 240v single phase 50 Hz

Rectus Double Shut-off Oil connection

Length 1444mm x width 645mm x height 975mm

Pneumatic Tyres

Weight 195kg
