

Make: Hilti

Model: VC60M-X

Description: High Suction Construction Vacuum

Universal, powerful vacuum cleaner with the highest suction capacity for heavy dust applications – Two turbines and power filter cleaning technology for consistent, extremely high suction performance. For intensive, wet and dry dust collection. Filter compartments are cleaned alternately to offer almost continuous suction. Tank designed to make slurry and dust removal easy. Water level sensors and floats help to protect the turbine from flooding. Enough suction to provide dust removal to two tools when used with a hose Y-adapter

TECHNICAL DATA

Max. Vacuum 25.4

Water capacity 48 l

Container capacity 65 l

Dust capacity 72 kg

Dust class M

Application Wet and dry, Cleaning

Integrated power socket No

Power source Corded

Rated input power 1752 W

Rated input voltage 110V 32AMP

Dimensions (LxWxH)578 x 488 x 882 mm

Weight according to EPTA Procedure 01/2003 24.5 kg
