

## PMR100 Mechanical Action Brick/Block Grab

### Features:

- **Lifting Range 300mm - 1140mm.**
- **Safe Working Load 1800 Kgs.**
- **Adjustable Depth 200mm - 970mm.**
- **Automatic Locking Mechanism.**
- **Interchangeable Jaws.**
- **Net Hooks/Hand Grips.**
- **Galvanized Height Shafts.**
- **Greaseable Pivot Points.**

The PMR grab can be fitted with our optional fork lift yoke, (*As Photo*) which incorporates a manual rotator, this allows the grab to be used with a fork lift or tele handler.

Type PMR100 is constructed from profile section steel. It also benefits from a large adjustable depth, with a maximum of 970mm, to reach the bottom of most block packs
