

## EU30i

- Compact and portable, ideal for your onsite energy needs.
  - Inverter technology delivers super stable clean power with a pure sine wave form - essential for powering sensitive electronics and computers.
  - Superb efficiency with EcoThrottle, only running as fast as the load demands, improving fuel consumption and extending engine life.
  - Super quiet operation with noise reducing casing and acoustic panelling. Ideal for places where noise plays an important part.
  - Transport wheels as standard, allowing a single user to easily manoeuvre the unit around the work site.
  - Parallel operation - Optional cable allows two of the same units to be linked together to double the rated output.
  - DC Output up to 12A to charge batteries (optional cable required).
  - Electric start for effortless operation.
- 
- Max output 3000W.
  - Rated output 2800W.
  - Noise level @ 7m 49dB(a).
  - Run time at variable load 7.1 to 20 hours.
  - Weight 61 kg.
  - Dimensions: L:655, W:480, H:570
