

Wacker PS3 1500 3" Submersible Water Pump

Product Description

- Insulated power cable conductors in the Wacker PS3 1500 Submersible Water Pump are protected by a water block system, preventing the wicking of water into the motor.
- Portable yet powerful design for industrial applications or serious home use.
- Maximum Pumping Pressure: 30 psi.
- Maximum Output Capacity: 111 GPM.
- Maximum Head: 69'.
- Intake/Discharge Diameters: 3".
- Motor Specifications: 2 hp, 3440 RPM, 110 v, 60 hz, Single-Phase Electric.
- Semi-vortex impeller made from durable ductile iron.
- Features a heavy-duty strain-relief power cord which resists pull-outs.
- 1/3" solid intake capacity.
- Standard 32' electrical supply cable.
- Cut down on repairs with the built-in thermal protection, it prevents motor damage due to impeller blockage.
- Standard lip seal protects dual mechanical seals with silicon carbide faces which keep the motor running cool.
