

SDV8000

Steam - Detergent - Vacuum

The SDV8000 is a commercial/industrial 8 bar pressure steam cleaning machine incorporating a chemical delivery system. It is made from a stainless steel construction featuring a continuous fill boiler system allowing refill at anytime during operation and comes complete with an integral vacuum system that has been awarded a Clean Show Innovation Award for its unique design. High temperature steam penetrates deep into surfaces sanitising and killing bacteria in a wide variety of commercial environments and the integral vacuum ensures surfaces are left clean & dry.
