

Specification

Round Top Panel with Anti-climb Mesh

The strongest panel on the market, with three sides formed from a continuous length of tube, eliminating the top corner weld.

- 2000mm (H) x 3500mm (W) panels available.
- Heavy duty tube frame (38.1mm) provide strength and versatility.
- Standard coupler.
- Galvanised finish as standard.
- Bottom corners benefit from RFX corner plates and Smartweld Technology increasing strength by up to 70%.
