

Eesiseel PVC Plugs

Eesiseel PVC Plugs

The Eesiseel range of inflatable PVC plugs have ridged bodies to ensure a good seal even in difficult conditions.

- Ridged bodies ensure a good seal even in difficult conditions
- Robust and easy to use with a simple to operate Schrader (car tyre type) valve c/w 1m hose

4"/100mm	4"/100mm
6"/150mm	6"/150mm
8" - 12"/200mm - 300mm	8" - 12"/200mm - 300mm
14" - 18"/350mm - 450mm	14" - 18"/350mm - 450mm

Nylon Air Bags

Stopper Specialists offer nylon air bags with either a Schrader valve or a gascock.

- Ideal for areas where the access opening is smaller than the test diameter or where the test is some distance from the point of access
- Manufactured from either dipped rubber latex or latex sheet
- Valves - either Schrader valve (tyre type) or 1/4" female brass gascock
- PVC braided tubing
- Comes fitted with 1m hose although longer lengths may be fitted
- Supplied to suit any diameter of pipe. Where more durability is required we recommend the nylon versions, although canvas is also available
- Cycle pump (Schrader) or brass pump (1/4" BSP) available for inflating
