

TP9000™

by Planet Platforms

The mobile trailer scissor lift

The TP9000™ is truly unique. In addition to a host of safety features, options and accessories, it also does not warrant the need of a trailer for transport. Operators now have the unique flexibility of being able to transport the TP9000™ to any desired work area.

Suitable for vertical work height of up to 9 meters, the unit has been engineered to the highest standard. TP9000™ is fully CE marked and meets or exceeds the requirements of UK and European safety legislation.

Set up

TP9000™ can be set up by one user in a matter of minutes whilst offering the lift capacity for a two-man operation. Its intelligent in-cage or ground controls are simple to use and maintain, ensuring optimum use in a fleet or end user role.

Support

TP9000™ is brought to you by award-winning access specialist Planet Platforms who provide complete sales and after-sales support for TP9000™ including lease packages, operator training, servicing and spare parts.
